	1		
W ENDING SHELTER COUNT December 31, 2016	0	74	74

in a perfect world, the Ending Count is equal to the Beginning Count (A) plus Total in	make		
(F) minus all Outcomes (R+V)	> 0	74	74

If your reported Ending Count does not match these numbers, please go back through your data and be sure you didn't miss something (i.e., animals in foster, adoptions, transfers, etc.). If all animals have been accounted for and the reported Ending Count is different, please indicate in the comment section.

COMMENTS:

The 4 that died in our care were a pre-wean kitten, an FIP case, a senior cat in kidney failure and unknown cause fatility.

I agree that in completing this form, we have used the Maddie's Fund definitions of "Healthy," "Treatable - Manageable," "Treatable - Rehabilitatable," and "Unhealthy & Untreatable" as set forth in the attached document titled, "Maddie's Fund® Categorizations/Definitions of Shelter Animals."
